

Exhibition Guide

41st Annual Congress of the European Association of Urology

London, 13-16 March 2026

Exhibition EAU26 - Purple Area

Opening hours Exhibition:

Friday, 13 March
12:00 - 18:00

Saturday, 14 March
10:00 - 17:30

Sunday, 15 March
10:00 - 17:30

Monday, 16 March
10:00 - 13:00

Come visit the Exhibition

The EAU Exhibition is one of the premier events worldwide for showcasing new and established products as well as cutting-edge medical technology. High-profile companies as well as small innovative businesses join the exhibition – offering insights and opening doors onto the world of modern urology.

Come visit the EAU Square!

The EAU Square, booth V14, is a dynamic and interactive area where members and non-members alike can meet up, and be informed on the EAU's latest projects and initiatives while enjoying a cup of coffee. Several of the EAU's offices are showcasing their most important initiatives in an interactive and fun way. Highlights include: sessions with Guidelines Panels; the return of the UROlympics; a photography booth where you can get a professional headshot made; the Historical Exhibition and of course membership desks.

Company and Product Description

A. MENARINI DIAGNOSTICS

Via Sette Santi, 3, 50131 Firenze, Italy
W : <https://www.menariniagnostics.com/en-us/>
E : internationaldiagnostics@menarini.it
Booth nr. : T23

Celebrating 50 years of "The Human Touch of Technology," A.Menarini Diagnostics empowers healthcare professionals with solutions that enhance quality of life. Expanding into oncology, Menarini advances patient care with Bladder EpiCheck®, a CE-marked non-invasive test. It monitors tumor recurrence in bladder and upper tract urothelial cancers and aids detection in patients with hematuria or urinary symptoms. 50 years of precision, dedicated to life.

A.M.I. AGENCY FOR MEDICAL INNOVATIONS GMBH

Im Letten 1, 6800 Feldkirch, Austria
T : +43 5522 90505-0
W : <https://www.ami.at/en/>
E : marketing@ami.at
Booth nr. : P15

A.M.I. is a European medical technology company specializing in Urology, Urogynecology, and Coloproctology. We provide innovative solutions for male and female stress urinary incontinence, including ATOMS, a minimally invasive, adjustable implant for incontinent males. Our portfolio also covers treatments for SUI and POP using both transabdominal and transvaginal approaches

A3P BIOMEDICAL

Kungsgatan 24, SE-11135 Stockholm, Sweden
T : +46 10 1823300
W : <https://www.a3p.com>
E : customersupport@a3p.com
Booth nr. : A22

A3P is a Swedish diagnostics company offering Stockholm3, a blood test that enhances early detection of aggressive prostate cancer. Clinically validated in over 90,000 men, Stockholm3 uses a proprietary algorithm combining protein biomarkers, genetic markers, and clinical data. Compared to PSA, it detects 100% more clinically significant cancers and reduces unnecessary biopsies by 50%, supporting urologists in delivering more accurate, personalized care.

ACCORD HEALTHCARE

Sage House, 319 Pinner Road, North Harrow, Middlesex, HA1 4HF London, United Kingdom
T : +44 1271 385 200
W : <https://www.accord-healthcare.com/>
Booth nr. : L04

Headquartered in the United Kingdom (UK), Accord Healthcare is a fast-growing global pharmaceutical company that develops, manufactures and distributes generic, biosimilar and added-value medicines in over 85 countries worldwide, helping to improve access for patients to vital pharmaceutical care.

Our approach is agile and inventive, we're driven to think differently by continuing to explore and deliver high quality medicines designed to benefit patients' lives worldwide.

ADVANCE MEDICAL DESIGNS, INC.

1241 Atlanta Industrial Drive, 30066 Marietta, United States of America
T : +1 800-221-3679
W : <https://www.advancemedicaldesigns.com>
E : paulbagli@advmeddes.com
Booth nr. : R26

AMD offers Biopsy accessories, including transrectal/transperineal biopsy guides and a family of biopsy guns. The EAU recommends antibiotic stewardship, zeroing sepsis, and improved CDR by adopting transperineal biopsy. As a result, we offer Freehand transperineal Needle Guides customized for GE (BK), Fujifilm, and a Universal model for MRI Fusion and other OEMs. All with migration-resistant clamps. Also, automatic, multi-fire, semi-automatic, and 360° sample guns for IR and Urology.

AGIBOT MEDTECH (SUZHOU) CO., LTD.

A-103, NO.1188 Changan RD, Wujiang, Jiangsu, 215100 Suzhou, China

T : +86 0512-62886095
W : <https://www.agibot.cn/en/>
E : Contact@agibot.cn
Booth nr. : Q14

Founded in September 2020 and headquartered in Suzhou, AGIBOT focuses on the R&D and industrialization of intelligent surgical products, centered by robotic systems. Guided by clinical needs and a commitment to independent innovation, we realize our vision of "More Intelligent Healthcare for All", strive to develop and commercialize more innovative, practical, and affordable surgical robots.

ALDAVER

34051 T337, Truth hall, 193, Munji-ro, Yuseong-gu, Daejeon, Republic of Korea (KAIST, Munji Campus), 34051 Daejeon, South Korea
T : +82 1027782295
W : <https://aldaver.co.kr/>
E : dywh2778@aldaver.co.kr
Booth nr. : H25

ALDAVER is a company that provides highly realistic customized surgical training models using novel biopolymer materials that closely mimic human tissues and 3D printing technology. Through our highly realistic surgical training models, cadavers and animals will no longer be needed, and medical professionals will be able to attain hands-on surgical training without any restrictions.

ALLIUM

2 Ha-Eshel St, 3079501 Caesarea, Israel
T : +972 46277166
W : <https://www.allium-medical.com/>
E : gilib@allium-medical.com
Booth nr. : Q28

Allium Ltd develops, manufactures, and sells the most innovative long-term, fully covered, self-expandable, and retrievable stents for the treatment of various malignant and benign obstructions and fistulas for multiple indications in the urinary tract.

ALTON (SHANGHAI) MEDICAL INSTRUMENTS CO., LTD

No.24 Building Jinshao Rd.1688.Baoshan District, 200949 Shanghai, China
T : +86 17821436868
W : <https://www.alton.com.cn/>
E : zyw@alton.com.cn
Booth nr. : K22

Alton (Shanghai) Medical Instruments Co., Ltd has been established on Jan, 2005. Our products include endoscopic surgical instruments and endoscopy with peripheral related medical equipment products. Specializing in the production of Grasping Forceps, Biopsy Forceps, Cleaning Brush, Snare, Injection Needle, Bite Block, Electrical knife, Cytology Brush and other endoscopic diagnosis and treatment instruments, endoscopic surgical instruments and peripheral related medical products.

AMBU A/S

Baltorpbakken 13, 2750 Ballerup, Denmark
T : +45 7225 2000
W : <https://www.ambu.com/>
E : ambu@ambu.com
Booth nr. : B22

Ambu continually rethinks conventional solutions to find new ways to advance patient care. We launched the world's first single-use bronchoscope in 2009, and our innovations cover urology, too. In fact, since 2020, over 2 million patients have been treated with our single-use cystoscope, cysto-nephroscope and ureteroscopy. We are also the world's first company to use bioplastic material in endoscopes – an initiative aimed at introducing plastics with a lower carbon footprint to medical devices.

AME PUBLISHING COMPANY

Flat/RM C 16F, Kings Wing Plaza 1, NO. 3 on Kwan Street, Shatin, NT., Hong Kong, China
W : <https://www.amegroups.com/who-we-are>

Come visit the EAU Square!
Come visit the EAU Square, a recently redesigned dynamic and interactive area where members and non-members alike can meet up, and be informed on the EAU's latest projects and initiatives. Several of the EAU's offices are showcasing their most important initiatives in an interactive and fun way. Highlights include: sessions with Guidelines Panels; non-technical skills surgical simulations,

the return of the UROlympics; Patient and Policy Office booths; the Historical Exhibition and of course membership desks.

This is where you can ask any questions about EAU membership, pay any outstanding dues or update your information. Visit the photo booth to get a professional headshot taken for your MyEAU profile. The Square is also where you can collect this year's publications, like the 2026 Pocket Guidelines or a free history of urology book of your choice. New merchandise is on sale, and if you want to take a break from the bustle of the Exhibition floor, you can treat yourself to a free cup of coffee from our baristas!

Booth nr. : S16

GALEAS™ Bladder is a non-invasive genetic urine test used for triaging patients with haematuria and assessing bladder cancer risk. It detects high-and low-grade bladder cancers with sensitivity and specificity comparable to a cystoscopy. Currently being evaluated by NHS Trusts, it can reduce the number of unnecessary cystoscopies, cutting costs and resource burden.

The test was co-developed by Nonacus, Prof Rik Bryan and Dr Doug Ward from the Bladder Cancer Research Centre at Uni of Birmingham.

Our single-use endoscope has the following advantages over other competitors: Premium image quality; Excellent deflection performance with auto-lock feature; accurate and consistent bending to position; No cross-infection

PATIENT INCLUSIVE ADVOCACY FOUNDATION (PIAF)

Nieuwzijds Voorburgwal 104-108, 1012 SG Amsterdam, The Netherlands
T : +31 208203913
W : <http://www.pi-af.org>
E : info@pi-af.org
Booth nr. : BL00

PIAF stands for a future in which healthcare is shaped with patients, not just for them. When we include every voice, we create space for better solutions—solutions that empower, heal, and unite. Let us build that tomorrow, together. Healthcare is not one-size-fits-all. Whether it's addressing cultural disparities, socioeconomic barriers, or specific health conditions, inclusive healthcare requires more than good intentions—it requires action.

PATIENT ADVOCACY PLAZA

Booth nr. : BL00

The EAU Patient Office places patients at the heart of everything the European Association of Urology (EAU) does. Our mission is to support individuals throughout their urology healthcare journey and to raise awareness among healthcare professionals.

The Patient Office also identifies unmet needs by conducting Patient-Reported Outcome Measures (PROMs) studies, which capture the real-life experiences of people living with urological conditions—including those who are often underrepresented in research. In addition, we support healthcare professionals (HCPs), patients, and caregivers through education initiatives and by promoting shared decision-making.

The EAU Patient Advocacy Plaza at the Annual EAU Congress showcases EPAG member organisations and features a dedicated theatre hosting 30-minute sessions led by EPAG members on Saturday and Sunday. For the full programme, visit: <https://eaucongress.uroweb.org/scientific-programme/patient-advocacy>. Through the EAU Patient Advocacy Group (EPAG), we ensure that the patient voice is represented in efforts to improve urological care. By sharing real-life experiences, EPAG contributes valuable insights that enhance health outcomes. By showcasing the patient perspective at the Annual EAU Congress, the Patient Office helps bridge the knowledge gap between HCPs and patients, fostering more patient-centred and informed care.

PFIZER, INC.

66 Hudson Blvd. E, 10001 New York, United States of America
T : +1 (212) 733-2323
W : <https://www.pfizer.com>
