

1. The effects of intranasal midazolam on urodynamic studies in children. Bozkurt et al. 1996.
2. Premedication with Oral Midazolam for Voiding Cystourethrography in Children. Elder et al. 1995.
3. Evaluation of the effects of sedation administered via three different routes on the procedure, child and parent satisfaction during cystometry. Ozmert et al. 2016.
4. Comparison of low-dose ketamine to midazolam for sedation during pediatric urodynamic study. Thevaraja et al. 2012.
5. Effects of Rectal midazolam sedation on cystometric parameters in children. Ozmert et al. 2017
6. Conscious sedation reduces distress in children undergoing VCUG and does not interfere with the diagnosis of vesicoureteric reflux. A randomized controlled study. Herd et al. 2006
7. Premedication during micturating cysturethrogram to achieve sedation and anxiolysis. Akil et al. 2004
8. Sedation with midazolam for voiding cystourethrography in children: a randomised double-blind study. Stokland et al. 2002
9. Oral midazolam for voiding dysfunction in children undergoing voiding cystourethrography: a controlled randomized clinical trial. Azarfar et al 2014.
10. Randomized clinical trial of sedation with oral midazolam for voiding cystourethrography in children. Sorkhi et al. 2010.
11. Sedation during voiding cystourethrography: comparison of the efficacy and safety of using oral midazolam and continuous flow nitrous oxide. Keidan et al. 2005
12. The effects of drugs and anaesthetic agents on the urinary bladder and sphincters. Doyle et al. 1976
13. Is there a peripheral site of action contributing to the voiding affects of
14. α_2 adrenoreceptor agonists and antagonists. Aro et al. 2015
15. Effects of anesthesia on cystometry and leak point pressure of the female rat. Tracy et al. 2000
16. Anesthetic agents affect urodynamic parameters and anesthetic depth at doses necessary to facilitate precilical testing felines
17. Voiding effects mediated by α_2 adrenoceptors in the anaesthetized male rat. Streng et al 2009.
18. Effects of opioids and benzodiazepines on bladder function awake restrained mice. Siebenthal. 2021
19. Effects of anesthesia on urodynamic studies in the primate model. Hamal et al. 1996
20. Commonly used intravenous anesthetics decrease bladder contractility: a in vitro study of the effects of propofol, ketamine, and midazolam on the rat bladder. Ceran. Et al. 2010
21. Effects of anesthetics on cystometric parameters in female rats. Ozkukrucugil et al. 2010

22. Creating a Sedation Service For Pediatric Urodynamics: Our Experience, Sweenet et al. 2008
23. Self-adjusted Nitrous Oxide During Urodynamic Studies Reduces Patient Pain Without Compromising Study Quality: A Randomized Controlled Trial. Escobar et al. 2024
